

## **IGCSE Drama (0411) Coursework Training Handbook**

The Coursework Training Handbook for IGCSE Drama (0411) provides guidance on the delivery, administration and assessment of the coursework component of this qualification. It is a useful teaching tool for all teachers involved in the delivery of the course. Each Centre running the course must register at least one accredited coursework assessor with Cambridge who can ensure the marking standard. The handbook provides a test through which teachers can acquire accredited status.

As the handbook includes a range of candidate evidence in video format for marking practice exercises, the file size is too large to allow customers to practically download it from Teacher Support. We would ask you therefore to go to our Publications Catalogue at the link below to order a hard copy version. Only one copy need be bought per Centre to allow multiple applications for accreditation. There is a small fee for the publication to cover production costs.
